This webinar will focus on the recent report by Hoffman that found collusion between APA, leading members, and staff and the Department of Defense in the support of psychologists’ involvement in interrogations during the course of the wars in Afghanistan, Iraq, and the Global War on Terrorism. The webinar will focus on the precise nature of the findings and the remedial actions taken thus far by APA in response to the findings. Solicitation of additional thoughts and actions from the participants will be sought and communicated to the APA leadership.
