All are invited to attend

PUBLISHING JOURNEY AND ELSEVIER ARTICLE TRANSFER SERVICE

DR. CHANG LIU

Abstract:

In this presentation, Dr. Liu will provide a deep understanding of the various perspectives along the publication process and how to help authors find the most suitable journal for their work. You will hear from Dr. Liu sharing valuable tips and strategies across the publication journey:

- Understand the publication process and tips for preparing a competitive manuscript for the right journal.
- Introduce Elsevier Article Transfer Service: discover effective strategies for submitting to the next journal with editorial insights.

Bio:

Dr. Chang Liu is a Scientific Editor at Elsevier, where she collaborates with authors, editors and publishers to facilitate the publication of impactful research across Elsevier's environmental science journals. She holds a Ph.D. degree in Environmental Engineering from Virginia Tech. Since joining Elsevier in 2021, Dr. Liu has drawn on her extensive experience in facilitating transfer offers and offering personalized guidance to authors of rejected manuscripts. She also worked as a Scientific Handling Editor, overseeing transferred papers from reception to final decision, managing peer reviewers, and evaluating author revisions.
